

SUMMIT SHORT-RUN CASSETTE PACKAGE PRICES

Effective February 2002 • Subject to Change Without Notice

Our Premium "Short-Run" Cassette production service provides a "world-class" product, ideal for those needing less than 150 tapes, where finished product is required in 5-10 working days or less. Often used for test marketing and promotion, or demos of music. Summit's short-run CrO2 cassette process utilizes only top music quality equipment and laser cover printing technologies. All tapes done in short-run process in are clear shells with white paper labels.
